

Burn Management Program

Educating and empowering rural clinicians in paediatric and adult burns

Multidisciplinary team approach

This course is aimed at any health professional – nurses, doctors, paramedics, anyone who is likely to come in to contact and care for a person with a burn injury.

An interactive day covering:

- ▶ Initial care and first aid, primary and secondary survey of the burn injured person
- ▶ Assessment and transfer of a major burn
- ▶ Fluid resuscitation for paediatric and adult burns
- ▶ Burn wound assessment
- ▶ Referral and transferring
- ▶ Burn wound dressings
- ▶ Multidisciplinary workshops
- ▶ Surgical Intervention
- ▶ Major incident awareness

Please note

All applications through DPMU - Training and Development website

https://ww2.health.wa.gov.au/Articles/A_E/Disaster-management-training-and-development

- ▶ Delegates should bring their own lunch and snacks as this is a non-catered course
- ▶ GP CPD -3 hours education activity and 3 hours review performance
