

Stay COVID safe on your ride

Physical
distance

Wash or sanitise
hands often

Stay home if sick
and get tested

Cover coughs

Use contactless
payment

Get fresh air

If you're going for COVID-19 testing or into quarantine

If you need to take a taxi or rideshare to a COVID-19 testing clinic or quarantine accommodation, make sure you take steps to keep yourself and others safe:

Book a large vehicle

Sit as far away as possible
from the driver

Wear a mask

Use hand sanitiser before
getting into the vehicle

Manage your
own luggage

Tell the driver if you are in quarantine, going for testing, or have any symptoms of COVID-19 before getting into the vehicle so extra precautions can be put in place.
