

# **SYPHILIS OUTBREAK**

## **Training website**

Professional development training is now available for health practitioners in regions affected by the ongoing outbreak of infectious syphilis among young Aboriginal people in areas of Qld, NT, WA and SA. The training is suitable for doctors, nurses, midwives, Aboriginal health practitioners and Aboriginal health workers working in affected areas.

Training content:

- Epidemiology
- Current outbreak
- Outbreak responses
- Clinical stages
- Testing and management
- Contact tracing
- Interpreting results
- Notification

The training includes a short assessment for participants to demonstrate their competency.

The training can be accessed at no cost on the ASHM Online Learning System under STI/BBVs in the course catalogue:

**[Ims.ashm.org.au](https://ims.ashm.org.au)**

RACGP and ACN course accreditation currently under application.
