

Fact sheet for travellers from a low risk jurisdiction

The State Emergency Coordinator has made Directions under the *Emergency Management Act 2005* (WA). This fact sheet presents a summary only of the obligations arising under the Directions. The signed Directions are available at www.wa.gov.au

If you are a person who enters Western Australia from a low risk jurisdiction (as defined at www.wa.gov.au) you must:

- Before travelling to WA, complete a mandatory G2G Pass registration and declaration.
- Complete a health screening on arrival at Perth Airport, including a temperature check.
- Self-quarantine in suitable premises for 14 days, or otherwise as directed.
- Wear a mask from when you enter WA until you arrive at suitable self-quarantine premises or government approved quarantine facilities. In addition, if travelling by air, you must wear a mask on the flight while in WA airspace, and while inside the airport.
- Present for a COVID-19 test within 48 hours of arrival.
- Present for a further test on day 12 if still in WA (with day 0 being the day of arrival in WA).

Self-quarantine

Information regarding self-quarantine, including what it means for you, your family or other people you are residing with is available on the HealthyWA COVID-19 website, under the 'What is self-isolation and self-quarantine?' section.

Reporting symptoms

You must contact 13 COVID (13 268 43) if you have or develop any COVID-19 symptoms. These include a fever ($\geq 37.50\text{C}$) or a recent history of fever (e.g. night sweats, chills), without a known source, or acute respiratory symptoms (including cough, shortness of breath, sore throat, runny nose), or an acute loss of smell or taste. Let them know why you are in self-quarantine.

Close contact of a confirmed COVID-19 case

If you are informed by authorities in any other jurisdiction that you are a close contact of a confirmed COVID-19 case, you must contact 13 COVID (13 268 43) and inform them you are a close contact.

Locations and alerts

Please contact 13 COVID (13 268 43) if you have been in any location identified by another jurisdiction as being a public exposure site, at the relevant time, for COVID-19. Check the relevant jurisdiction's website regularly for updated information.

Testing

You will be required to present for a day 12 test if you are still in WA at that time.

The most up to date COVID Clinic information, including opening hours and locations, is available on the [HealthyWA COVID Clinics](#) page or by calling 13 COVID (13 268 43).

You should do the following:

- You must travel to the COVID clinic that is nearest to you and by the most direct route available and without stopping except as required by law or necessary for fuel or rest.
- You must travel to and from the COVID clinic by
 - private vehicle, taxi, or rideshare service; or
 - walking provided that
 - the COVID clinic is located within 2 km of the place where you are under quarantine; and
 - you take all reasonable steps to keep at least 1.5m away from any other person whilst walking to and from the COVID clinic.
- You must not use public transport such as a bus or train
- You **must** wear a face mask if available and appropriate from the time you leave the place where you are in quarantine, until you return to that place.
- You must maintain a distance of 1.5 metres from others, practise good hand hygiene and cough etiquette.
- Once you are no longer required to remain at the COVID Clinic, you must travel as soon as possible and by the most direct route available, without stopping except as required by law or necessary for fuel or rest, to the place where you have been directed to self-quarantine.

I am leaving WA before day 12; do I need to get tested?

If you are leaving WA before day 12 after your arrival, you do not need to get a COVID-19 test unless you develop symptoms. You must comply with any other requirements that apply to you until then.

Do I need to have a negative test result before flying?

The need to be tested before flying is determined by your airline so check with them.

What happens if my day 12 test is negative?

If your test is negative, you will receive your result via SMS within 3 business days of your test. You are still required to complete your 14-day self-quarantine period.

You will receive your result via SMS within 72 hours if you were tested at a WA Department of Health COVID clinic or country hospital. If you have not received your result within 48 hours, please contact the Results Hotline 1800 313 223 between 8am to 4pm, 7 days per week. If you have been tested in a regional or remote area, please be aware there may be a delay in receiving your result.

What happens if my day 12 test is positive?

If your test is positive, you will be contacted by a member of the WA Department of Health's Public Health Operations Team. You will be advised on what action to take, which will include a mandatory isolation period. You will be asked to identify who you have been in close contact with whilst you were potentially infectious. This is known as contact tracing.
