4.2 Other treatment decisions

Use Part 4.2 to indicate your decisions for other (non-life-sustaining) treatments.

There are a range of other treatments that may be options for you in future.

Examples include treatments for mental health (e.g. electroconvulsive therapy) and drugs used to prevent certain health conditions (e.g. aspirin, cholesterol treatments).

When making the treatment decision, list the circumstances in which you want your decision to apply (e.g. in all circumstances, or specify particular circumstances).

A treatment decision only applies in the circumstances you specify.

Please ensure you indicate in the 'My treatment decisions' column whether you consent or refuse consent to any treatment you refer to.

Cross out Part 4.2 if you do not want to complete it.
